Be sure to enclose a void check or deposit slip

Here's how the program works:

A bill for your monthly utility services will be mailed to you each month showing the exact amount to be drafted from your bank account and the date the draft will be drawn.

The amount of your monthly utility bill then will be withdrawn automatically from your checking or savings account each month on the due date indicated on your utility bill.

To participate in this program, you must have a checking or savings account at a bank, or savings and loan institution. Please allow 30-60 days for this application to become effective. NOTE: If you have more than one utilities account with the same name, all accounts will be drafted.

To revoke this authority the account holder must notify the Water Utilities Department at the address stated, in writing, of their intent to cancel. Please provide at least one week prior to the next withdrawal for cancellation.

If drafts are returned insufficient at any time, a \$25.00 fee will be assessed on the account. The City reserves the right to end this automatic bill payment service at any time after giving written notice of termination to the account holder. A second insufficient bank draft will result in the termination of this program for the account holder.

How do I get started?

To authorize the bank draft, complete the form on the left, and return it along with a voided check to the Freeport Water Utilities Department at the address stated.
