News Release

The City of Freeport and the Freeport Economic Development Corporation have been working diligently with the property owner of the Arlan's grocery store location in the efforts for re-opening. I know that the re-opening has been a great concern for our residents, and I am proud to say that the roof will be completed soon followed by interior repairs. We have confirmed that the grocery store's anticipated re-opening is scheduled for late August. This time frame includes the repairs for both the roof, interior damage and time for re-stocking for the public.

As always, we thank you for your patience and support!

Thank you,
Lance Petty
City Manager
