

Public Notice to Boil Water

Due to a condition (water main repair) which occurred recently in the water system during the recent water outage (09/19/2023) 1400-1600 block of west 11th between Pecan and Yaupon, the Texas Commission on Environmental Quality (TCEQ) has required our water system (City of Freeport Water System ID#0200005) to notify customers of the need to boil their water prior to consumption.

To ensure destruction of all harmful bacteria and other microbes, water for drinking, brushing teeth, cooking and making ice should be boiled and cooled prior to use. The water should be brought to a vigorous, rolling boil and then boiled for two minutes. In lieu of boiling, you may purchase bottled water or obtain water from some other suitable source.

When it is no longer necessary to boil the water, the water system officials will notify you that the water is safe for consumption. Instructions to discontinue boiling will be issued in the same manner as this notice.

If you have questions concerning this matter, you may contact City Hall at 979-233-3526 or Veolia at 979-233-4281.
